December 1, 2014

# Table of contents

## 1 First subject

- First part
  - First subpart

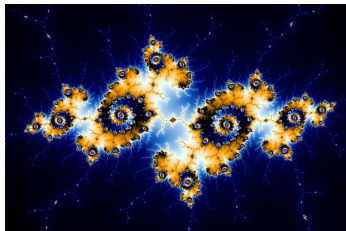

## 2 Second subject

- First part

# A column, just because you can

Not everything in this life  
needs to have a purpose,  
sometimes you make things  
because they are pretty

# Just a slide

- Making presentations in  $\text{\LaTeX}$  is easy.
- Formulae are easy to add:

$$\int_0^{\infty} e^{-x^2} dx = \frac{\sqrt{\pi}}{2}$$

And yes, the Gaussian is present a lot today.

# An animation

- It won't get any more serious with this.

# An animation

- It won't get any more serious with this.
- Peekaboo!
